## Personal Statement

A seasoned and highly skilled Mobile Engineer with an impressive track record of over five years in the field. I specialize in developing robust and impactful software applications using technologies such as Reactnative, React.js, React TypeScript, Redux, Zustand, Tanstack Query, JavaScript, Flutter, Dart, Firebase, Context API and nodejs (currently).

With over four years of professional experience in Frontend development, I excel in breaking down complex problems and implementing the most effective coding practices to deliver optimal solutions.

My approachability, strong work ethic, and commitment to delivering high-quality results make me a valuable asset to any project or team. I am driven by a "get-it-done" attitude while maintaining a focus on quality. I bring a results-oriented mindset and a collaborative spirit to every project.

## Work Experience

### Mobile App Developer

Cephas ICT Hub, (August 2021 – Present) *Nigeria*

Currently, I work as Mobile App Developer at Cephas ICT Hub, building and developing effective and efficient android and iOS applications. We're a strategic technology company crafting and innovating valuable digital solution to help businesses grow.

- Developing and maintaining mobile applications using React Native and flutter framework.
- Collaborating with cross-functional teams, including designers, product managers, and backend developers, to define and implement new features and functionalities.
- Writing clean, efficient, and reusable code to ensure the scalability and maintainability of the applications.

### Mobile App Developer

Hadegold Media (May 2023 – September 2023) *Nigeria*

- Managed and enhanced the O'health and O'Doctor Apps
- Utilized React Native to fix bugs and introduce new features
- Collaborated with cross-functional teams to gather requirements and design solutions
- Demonstrated problem-solving skills and adaptability to meet tight deadlines
