PROFESSIONAL SUMMARY

A seasoned and highly skilled Software engineer with an impressive track record of over five years in the field. I specialize in developing robust and impactful software applications using technologies such as C#, .Net, Swift, SwiftUI, Flutter, Dart, Bloc, Riverpod, Firebase, ReactNative, React.js, React TypeScript, Redux, Zustand, Tanstack Query, JavaScript, and Node.js.

With over four years of professional experience in frontend development, I excel in breaking down complex problems and implementing the most effective coding practices to deliver optimal solutions.

My approachability, strong work ethic, and commitment to delivering high-quality results make me a valuable asset to any project or team. I am driven by a "get-it-done" attitude while maintaining a focus on quality. I bring a results-oriented mindset and a collaborative spirit to every project.

EDUCATION

M.Sc. in Information Technology

University of Lagos, Lagos, Nigeria

2025 - Present

B.Tech. in Chemical Engineering

Ladoke Akintola University of Technology Ogbomosho, Oyo State

2018 - 2023

Diploma in Software Engineering

Altschool Africa

2023 - 2024

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Oceansmith Inc, United States(Remote) | June 2024 - Dec 2025

- Develop core components for an innovative software solution, ensuring high code quality and system robustness.
- Lead mandatory code reviews to maintain best practices and mentor junior engineers on technical standards.
- Coordinate and facilitate engineering meetings to align technical strategy, prioritize tasks, and remove blockers.
- Collaborate closely with product managers and fellow engineers in an agile environment to define requirements and deliver on the product roadmap.

Software Engineer

Wasshh Inc, Lagos Nigeria(Remote) | June 2024 - June 2025

- Developed a full-stack mobile application using React Native and Nodejs (Backend), handling everything from user interface design and state management to cloud functions and real-time database operations.
- Built and consumed secure RESTful APIs to facilitate data flow between the mobile client and backend services, ensuring robust error handling and data validation.
- Diagnosed and resolved bugs across the entire application stack, utilizing debugging tools for mobile UI issues and backend logging systems to quickly identify and deploy fixes.

Mobile Engineer

Cephas ICT Hub, Nigeria(Hybrid) | August 2021 – July, 2025

- Engineered and maintained robust, scalable mobile applications, ensuring high performance and a seamless user experience across platforms.
- Spearheaded collaboration with cross-functional teams of designers, product managers, and backend developers to define project requirements and successfully implement new features.
- Championed code quality by writing clean, efficient, and reusable code, significantly enhancing application maintainability and scalability.

Lead Mobile Engineer

CyberOcean, Nigeria(Remote) | September 2023 – February 2024

- Led the development of a scalable Android and iOS application, establishing a foundation of clean, efficient, and reusable code.
- Improved overall code quality and team skills by conducting regular code reviews and providing constructive, actionable feedback.
- Optimized application performance and efficiency, and expertly troubleshooted complex issues to ensure a bug-free user experience and timely resolution of problems.

Tech Support

Gaotech Inc, USA (Remote) | June 2023 – September 2023

- Ensured system reliability by proactively troubleshooting and debugging software issues, delivering timely and effective resolutions.
- Conducted in-depth research and analysis on new technologies and software products to inform decision-making and improve support protocols.
- Maintained high standards of documentation by preparing detailed reports on issues, resolutions, and product research.

Mobile Developer

Hadegold Media, Nigeria(Remote) | May 2023 – September 2023

- Ensured system reliability by proactively troubleshooting and debugging software issues, delivering timely and effective resolutions.
- Conducted in-depth research and analysis on new technologies and software products to inform decision-making and improve support protocols.
- Maintained high standards of documentation by preparing detailed reports on issues, resolutions, and product research.

TECHNICAL SKILLS

- Javascript, Typescript
- React Native
- Reactjs
- Flutter
- Dart
- C#
- Node Js, ExpressJs
- Mongo Db
- My SQL
- Software application Building
- Database management software
- Mobile Achitecture
- Solutions deployment
- Database programming
- Web-based software engineering
- Program testing software
- CI/CD (Git, Docker)
- Firebase
- Superbase
- Android Development
- IOS Development.
- AWS lambda, AWS Cognito.

PROJECTS

- Honour World - [Android](#) / [iOS](#)
- Beentos - [Android](#) / [iOS](#)
- Wasshh - [Android](#) / [iOS](#)
- Africartz - [Android](#) / [iOS](#)
- Kemtech - [Android](#)
- Teetop Digital - [Android](#)
- Artisan Connect - [Android](#)
- Skill Remit - [Android](#)
- Moavoxpay - [Android](#)
- v12 pay - [Android](#)
- Testimony Digital - [Android](#)

INTEREST/CAREER GOALS

- Branding and Business Development
- Empowerment and Capacity Building
- Building Scalable Software Solutions

ADDITIONAL INFORMATION

- Language: Yoruba, English

CERTIFICATIONS

- National youth service corps (NYSC)
- Diploma in Software Engineering - *Altschool Africa*
- React Native Certified - *Cephas ICT Hub*
- Flutter Certified - *Udemy*
- Dart Certified - *Udemy*
- Matlab Certified - *Launchi Software Academy*
- Aspen Hysis - *Launchi Software Academy*
- Foundation: Data data everywhere - *Cousera*
- Google Digital Certificate - *Google*.
